

The Humber College Institute of Technology & Advanced Learning is pleased to announce some of the additional benefits they are now able to provide to their clients through the Transportation Training Centre's partnership with Fork Truck Training Limited (FTT).

After extensive research, FTT was selected to partner with Humber based on their excellent reputation for corporate training and the high quality of their programs which are all delivered by highly skilled and professional instructional staff.

FTT, founded in 1978, continues to enjoy the reputation of being the longest running material handling training company whose sole purpose is directed toward employee training. Specializing in all types of material handling courses including training on forklift trucks, industrial cranes, aerial work platforms, loaders, and, sweepers as well as the delivery of customized safety training programs. A complete listing of our training courses can be provided to you upon request.

We are hopeful that the enclosed brochure will assist you as you move forward in determining your specific employee training needs. The staffs at both FTT and Humber look forward to working with you and your organization and hope you will consider us when planning your next training initiative.

If you have any questions regarding training in transportation or material handling related matters we would only be too happy to hear from you.

Sincerely,

Karen Tavener
Director Transportation Training
